

## LEA | aroma diffuser

**BERNHARD | BURKARD designed the innovative aroma diffuser LEA for Swiss brand STADLER FORM. The beautiful slim lady fills the air with any fragrance in a intelligent way.**

The Swiss design studio BERNHARD | BURKARD designed a smart aroma diffuser for Switzerland based brand STADLER FORM. Using a unique technology, Lea diffuses the aroma throughout the room directly from the fragrance oil bottle. Subtly and discreetly, Lea emits your favourite fragrance. Thanks to rechargeable batteries, Lea operates without a cable, creating a soothing fragrant experience anywhere. The interval mode ensures a long running time: Lea operates for 10 minutes followed by a 20-minute break. If Lea is only required to diffuse aroma in the room in response to brightness, then the daylight mode is the correct choice. With the 100% pure essential oils you can wave goodbye to stale air!

LEA comes in four different colors: berry, white, black and metal. It is made from plastic and aluminium. LEA is first shown at the international consumer electronic fair IFA 2014 in Berlin, Germany.

International patent application pending.

## About BERNHARD | BURKARD

The Swiss design studio BERNHARD | BURKARD GmbH was established in 2010 by Fabian Bernhard and Thomas Burkard. Their focus lies on both innovative and creative solutions that are at the same time highly esthetic and an appropriate resource management. Design starts with a call for change. Besides technical skills they have the curiosity and the will to face the world with open eyes. They believe that beyond styling and optical dressing contemporary design, as a process for products and communication, can generate the additional benefit that leads to sustainable success for all users.

## About Stadler Form Aktiengesellschaft

Stadler Form Aktiengesellschaft was founded in Zug in 1998. The company specializes in the development, manufacture and sale of household appliances with a focus on improving indoor air quality (air purifiers, humidifiers, fans, heaters, dehumidifiers, aroma diffusers). The product development emphasis is on timeless design in combination with high-end technology. The initiator and founder of the company is Martin Stadler, who attracted a lot of attention and achieved great success in 1998 with the first product, "FRED the humidifier". Stadler Form designs and develops the appliances in Switzerland in collaboration with Swiss Designers, such as Mathias Walker (Matti), Carlo Borer, Bernhard Burkard, Kurt Zimmerli and Fabian Zimmerli. Stadler Form products have already been internationally recognized with several design awards. The company exports its products to more than 40 countries around the world and has become a leading supplier in the field of air treatment
